# Direct Access to Achievement

## The “Nuts & Bolts” of Data Teams

# August 19th-20th

**Goal:** Data Team Leaders will increase knowledge and skills to lead school data teams.

**Structure:** Leadership teams will work together to create a data team plan around cooperation/collaboration, effect data team systems, setting goals, communication, and using this process to support ALL school improvement initiatives. At the conclusion of the two days, teams will have a comprehensive plan to take back to school districts!
